This Weeks Run...

Run No:	Hares:	Place:	Date:
1158	Smallbone & Camel	Mui Wo	July 4 th + 1

The Warm Up

Another wet soggy day of hashing awaited us as the crowd gathered at the Central Ferry Piers. *Haggis the Horrible* and *Rawhide* arrived early to catch the 2:30 boat only to find out it didn't exist. So we all took the 3:00 boat to Mui Wo for this American Independence Day hash, set by those quintessential Americans *Smallbone* and *Camel*. Standard Southside err Wanchai markings, Rambo wimp split and to include watchtowers, three for the Rambos and two for the wimps. For me this evoked images of a Dylan, Hendrix style hash complete with jokers and thieves while for *CPH* it evoked images of a Jehovah Witness style hash complete with magazines being handed out at various points during the hash.

The Run

The trail took us through a village and fairly quickly brought us to the R&W split. The Rambos where then confronted with some steps and some good old fashion muddy shiggy. I did see one watchtower that at this point appears to have been in disuse for quite some time. *Hicky Slut* was our pace setter and we would know how bad the shiggy was by how loudly she was complaining. I spent some good hash bonding time with *SOS* who reminisced that in his youth The Irish Bar in Macau was the greatest place in the world. I kind of agree and I still enjoy the odd pint there from time to time. So back down a mud hill, much of it on our ass to rejoin the wimps. And there was *Motormouth* wandering around in the wrong direction. Can't say that I was that surprised. Somewhere along the trail was either the check or check-back of the century, as 50min. into a 45min. hash I was being passed by such hash legends and FRBs to include *CPH*, *Indy Anus*, *F3M*, *Community Chest*, *Master Wanker* and *Catch of the Day*. *F3M* was telling me of orange clad, bearded, commune people spreading peace and free love. Boring for me to be on true trail. So then down the paths along a rain swollen river back to A just as the sky turned black and the rain came down in buckets.

Filipina team is *Raw Hide, G-String, Rowena, Imelda 2, Lesbian Buttslap, Shoe Horney*, and *Gemma*. Smallbone as Guest RA for the missing Hopeless

- Hasher Peter to now be known as *Woody Fucker In The Anus*.

- In a fluke as Smallbone tells Sung Kyuing that her name is coming soon it is decided that yes her name shall be *Cumming Soon*.
- Imelda 2 to now be known as *Bend Over*. Haggis tells me spelling should be *Ben Dover* as this is a famous British porn star but he hasn't seen any of his movies. I'll look to the GM for guidance. Either way I think my lifetime supply of banana cake is going to be cut off.

The On-On

The on-on was at a local Dai pai Dong. The names for Peter and Sung Kyuing was morphed from my takeoff on the story of Woody Allen and Sung Yi. But apparently Australians and Scots haven't heard of either of them or the story so I spent much of the dinner explaining. *Tiny Teepee* was observed between two Filipinas and sporting a big smile. Gone are the days of perving over the male singers at Spicy Fingers. *Wet Nurse* was concerned about my brand new hash shirt having ink all over it, a hazard of my scribing duties. And then it was off to the ferry to Central.
